About the University

Om Sterling Global University, established in 2019, under Haryana Private Universities Act, dedicates itself to achieve its vision, mission and objectives through academic excellence in all spheres of knowledge. OSGU has fully-developed institutional land with lush green campus and modern infrastructure which provides excellent academic atmosphere. In line with its vision and mission, the campus has been designed and developed with great sense of aesthetics to provide eco-friendly environment and ambience to stimulate hunger for learning. As a temple of education, this University aims at producing world class academicians and leaders in all spheres of life by embedding in its students high moral values, commitment to excellence, and zeal for incessant pursuit of knowledge.

About the Workshop

The workshop is designed to offer the participants with hands-on approach to conduct research. On completion of the workshop, participants are likely to have developed the necessary skills to review the literature, develop hypotheses, frame research design, identify sampling techniques and comprehend the role and relevance of the tools for data collection and analysis. The seven days workshop will expose the participants to both theoretical and practical inputs. The research scholars are expected to bring their problem and data if they have to work on during the workshop and at the end they would perform data analysis independently, Participants would make a presentation before the participants and experts.

It is against this backdrop, the proposed training programme will offer a platform to become a well conversant with challenges of doing research in the field of higher education. Further, it is desired that the deliberations by eminent professors and scientists will educate the future researchers of the country.

Objectives of the Workshop:

- To provide an overview of contemporary research methodology and review of Literature.
- To provide the platform for discussion on methodological requirements of research and to simulate and capture new approaches.
- To develop the skills to formulate hypotheses and research questions, frame research design and identify sampling techniques, including statistics and digital resources.
- To make the participants familiar with the art of using different research methods and techniques.
- To provide the platform for discussion on the statistical requirements of the research.
- To train and inculcate the skills for data collection in library, archives and field study and analysis.
- To guide and train participants for preparing draft paper with addressing the questions of punctuation, capitalisation, hyphenation and abbreviations.
