Dear Students, Om Sterling Global University, a brainchild of a visionary, an educationist and philanthropist, Dr. Punit Goyal & Dr. Poonam Goyal provides exceptionally congenial academic environ for incubation of catalysts to outperform global benchmark. The University has carved out a niche among the comity of students as diversified human assets. Embedded in the guidance of highly qualified

faculty and rooted in the pursuit of intellectual excellence, it attempts to unlock inquisitiveness for experiential learning to spearing quality leadership and entrepreneurship. We ignite the passion in students and churn them out as a brigade of change leaders. It has been observed that the gap between higher education and employment has been widening over the years. This points out to the challenges of functionality of output and maintaining the quality and standard in academics. The basic fabric of knowledge has to be capable of qualitative and effective capacity building as quality alone can drive the change. We have been meticulously redesigning over value delivery system through process of ongoing transformation. Students are our brand ambassadors and for holistic development of our students, the OSGU not only provides a vibrant and positive ambience but a well-equipped library, sports club and extracurricular facilities etc.

I extend best greetings to all the participants on behalf of Om Sterling Global University (OSGU), known for its commitment to academic excellence and intellectual capital. I believe that a University must be led by a set of shared beliefs as education is a covenant between educator and the community. We at OSGU are therefore extremely elated of the relationship we have with our community and the individualized education that we are able to provide to our students. All contemporary

teaching strategies, including differentiated instruction and outcome based education are adopted to meet the unique needs of the students. India is fast emerging as a knowledge society where universities are the real engine to move it. Higher education; further is a significant contributor of national development and growth. Thus, the higher education landscape is changing rapidly. Young scholars are seen here confidently as pursuing their passions — academic inquiry, athletic endeavour, or artistic expression. Cultivating the full potential in each student requires a caring, committed and experienced set of millenium faculty & staff. The university understands that each student learns differently hence their talent is realized and nurtured uniquely. The group has over 10 years of experience in imparting quality education through modern tools and equipments in the tranquil environment.
